Cordylanthus mollis ssp. hispidus - hispid bird's-beak (SC)

Gratiola heterosepala - Boggs Lake hedge-hyssop (CA)

Legenere limosa - legenere (SC)

Species with Critical Habitat Proposed or Designated in this Quad

vernal pool invertebrates (X)

vernal pool plants (X)

Key:

(E) Endangered - Listed (in the Federal Register) as being in danger of extinction.

(T) Threatened - Listed as likely to become endangered within the foreseeable future.

(P) Proposed - Officially proposed (in the Federal Register) for listing as endangered or threatened.

(NMFS) Species under the Jurisdiction of the National Marine Fisheries Service. Consult with them di these species.

Critical Habitat - Area essential to the conservation of a species.

(PX) Proposed Critical Habitat - The species is already listed. Critical habitat is being proposed for it.

(C) Candidate - Candidate to become a proposed species.

(CA) Listed by the State of California but not by the Fish & Wildlife Service.

(D) Delisted - Species will be monitored for 5 years.

(SC) Species of Concern/(SLC) Species of Local Concern - Other species of concern to the Sacramento Wildlife Office.

Our database was developed primarily to assist Federal agencies that are consulting with us. Therefore include all of the sensitive species that have been found in a certain area *and also ones that may be a projects in the area*. For example, a fish may be on the list for a quad if it lives somewhere downstream quad. Birds are included even if they only migrate through an area. In other words, we include all of th we want people to consider when they do something that affects the environment.

This is *not* an official list for formal consultation under the Endangered Species Act. *However, it may l update official lists.*

If you have a project that may affect endangered species, please contact the Endangered Species Di Sacramento Fish and Wildlife Office, U.S. Fish and Wildlife Service.
